COMICCRAFT

Phase 8 - Project Demonstration

The final demonstration presents the working ComicCraft project.

Demonstration flow:

1. Introduce the ComicCraft project.
2. Explain the purpose and objectives.
3. Show the application interface.
4. Provide the required input.
5. Run the application.
6. Show the generated comic output.
7. Explain the major workflow and features.
8. Conclude with the project result.

The demonstration shows how the planned system works from user input to final comic output.
